BORN—On Saturday, July 21,  
to the wife of Robert Thompson,  
of the Pleasant Grove neighbor-  
hood, a twelve-pound boy.

Now for bargains. All custom  
made axioms and slippers down  
the cheap counter at Mass-  
field's.

The ice cream supper given at  
the court house on last Friday  
evening by the ladies of the Bap-  
tist church was a very pleasant  
affair and quite a good sum was  
realized.

Saxton's band of Lexington  
has been engaged to furnish  
music for the Springfield fair,  
and it goes without saying that  
the music will be one of the at-  
tractive features of the meeting.

It was announced that the  
base ball club from Lebanon  
would come over on last Tuesday  
to play the home boys but for  
some reason not given the Leba-  
non nine failed to put in an ap-  
pearance.

On Wednesday, July 21, at

Rev. John M. Crowe lectured  
at the Court House Tuesday on

Refreshment privileges for  
the Washington county fair, to  
be held August 30, 31 and Sep-  
tember 1, 1900, will be sold to  
the highest bidder in front of the  
Court House on Saturday after-  
noon, August 4.

The Campbellville base ball  
team passed through here last  
Friday evening. The Barlowers  
where they played two games of  
ball with the club of that place

lives to tell the tale.

The reunion of the former  
pupils of Mrs. Vawter which is  
to be held at Pleasant Grove

promises to be a pleasant occa-  
sion. All former pupils and  
friends will attend and bring  
banquets for the big dinner which  
will be spread.

The catalogue of the Washing-  
ton county fair has been issued.  
It contains several new pro-  
grams for large amounts that  
will doubtless induce fine ex-  
hibitions of horses and cattle. Cat-  
alogues can be had by addressing  
or calling on Robt. Noe, secre-  
tary or by calling at the News-  
Leader office.

There was a good crowd in  
town on County Court day but  
the live stock market was dull,  
there being very little stock of-  
fered. Col. R. E. Whigam re-  
ports the following sales: three  
bushels for \$55, two steers at  
\$23.30 each, three Jersey calves  
at \$18.50, two Jersey calves  
\$10.00, two Jersey steers at \$9.50,  
one cow and calf \$27.50, one  
cow and calf \$25, mare and colt \$50,  
one buggy \$25.00.

A queer specimen of the hobo  
struck the town last Saturday  
and after he had drunk nearly  
everybody he had the nerve of a  
drunk streak out on foot for the  
next station. He said he was a  
"Dandy Scot" and he looked it.  
He was full of stories of adven-  
tures, cheapness and other things.  
For the benefit of the  
NEWS-LEADER he condescended  
to write the following item  
about himself which we

published in full as follows:  
"I am Robert Johnson, of the  
British Navy, arrived in this  
town today having traveled on  
foot from Alabama. He has been  
with England in the navy for  
six years. Went through the South-  
ern war in Egypt, has been at  
the siege of Constantinople and also  
at Khartoum the rifle of the  
Congo Gordon. He is a man  
who has seen many engagements.  
He bears scars to show. Having  
been in the Zulu war in Africa,  
he fought single handed three  
Zulus for which he received two  
medals. Returning from the navy  
he went to South America, there  
participating in the Rebellion of  
1850.

## GROUND BROKEN.

The Contract Let for Wa-  
ter Works and Elec-  
tric Lights to be Com-  
pleted Within Four  
Months.

The contract has been let and  
work has actually begun on the  
water works and electric plant  
and it nothing unforeseen hap-  
pens to prevent within four  
months from date the inhabi-  
tants of Springfield will be en-  
joying the luxury afforded by these  
modern conveniences and evi-  
dences of an advanced age.

The contract for putting in  
the plants—everything com-  
plete—was let last week to Mr.  
F. H. Sheffield of New Albany  
Ind., who gives a guarantee to  
have the work finished and the  
plants in operation within four  
months from the signing of the  
contract. The plants are to  
cost about \$18,500, exclusive of  
the cost of the site. Water  
mains and electric light wires  
are to be run all over the town  
and the arc lights for street  
lighting and the fire plugs are  
to be located at the most con-  
venient points or at such places  
as may be designated by the  
board of town trustees. The  
plans call for twelve arc lights  
and twenty-four fire plugs.

The work of excavating for  
the reservoir has been sub-let to  
Thompson & Lake who have a  
number of teams with plows and  
scraper at work making the  
excavation. The dam, which  
will be built partly of masonry  
with dirt backed up, will be  
forty feet high and about 700  
feet long. It is estimated that  
the reservoir will hold 70,000,000  
gallons of water. The Holly  
system of pumping will be used  
which does not require a stand  
pipe. The pressure will be of  
sufficient force for all purposes  
and in case of fire a powerful  
stream from the fire plugs may  
be turned on. Some of the iron  
pipes for the mains through the  
streets have already arrived and  
have been distributed. The  
work of pipe laying will be  
carried on simultaneously with  
the building of the reservoir and  
the erection of the electric light  
and pumping station.
